

WHERE ALL CARPET CLEANERS GROW

# Results Matter

**AFT...** Read about this industry exclusive

## Welcome to the Bonnet Pro family —

**Thank you for considering Bonnet Pro.** We know you have many choices available to you, so we strive to make products you will see as your best choice. For instance – our proprietary T2H hybrid encapsulation polymers that help carpets stay cleaner longer and won't give your customers a negative — crystallizing encap dust. T2H helps promote clean.

**Safer raw material choices.** We could choose less expensive raw ingredients that would yield a higher profit, but they are not the healthy choice for you, so we won't use them.

**Education.** When you call us, our goal is not to sell you but to educate. We find an educated customer is our best resource for a long, sustainable relationship. Once you get to know us, you too will realize our goal is to serve you, not to sell you.

**A fresh clean carpet.** We have spent years making our products smell fantastic with the use of ProFresh, our exclusive scent. We want you to enjoy using our cleaners and we want your customers to say "WOW! My carpets smell and look better than ever before!"

**One stop shop.** You need a wide range of quality items for your carpet cleaning operation. You will find everything you need right HERE. Products, education and services.

Bonnet Pro is a Christian run family business with part of our income going to Compassion International, TRW and Voice of the Martyrs. I use my more than 33 years of cleaning experience to ensure that my products are the best products available. I personally field tests all of Bonnet Pro's products. We never rest in this competitive market, and constantly strive to bring you the most innovative, best performing, best smelling and safest products possible in my commitment to serve you, our valued customer. My goal is to make you the cleaning legend in your town.

Sincerely,

John H. Klucznik  
Founder of Bonnet Pro, Key Floor Care and CT6

That Jesus did come and die, even for one like me.

## Surround OmegaZyme

Case - \$159.00 **\$7/cs shipping**  
One Gallon - \$39.75

OmegaZyme is the first enzymatic encapsulation detergent to receive the CRI Seal of Approval. This high-powered carpet encapsulation detergent is formulated for your most difficult carpet cleaning challenges, like apartments and greasy restaurants.

## Surround Omega with Citrus

Case - \$149.00 **\$7/cs shipping**  
One Gallon - \$37.25

OMEGA is your "go to" product for commercial and residential encapsulation carpet cleaning. With the customer-pleasing ProFresh with natural citrus scent, OMEGA can be used for low moisture carpet cleaning due to its encapsulation properties from our T2H polymers. Plus, OMEGA makes a great pre-spray for hot water extraction.

## Surround Ultra with ProFresh

Case - \$138.00 **\$7/cs shipping**  
One Gallon - \$36.00

The first encap to actually incorporate encapsulating odor counteractants, while retaining all of the features you expect in a double strength Ultra premium encapsulant.

## Surround Free

Case - \$138.00 **\$7/cs shipping**  
One Gallon - \$36.00

An absolutely odorless super-concentrated encapsulation carpet cleaner. It's great for nursing homes, hospitals, schools, residential homes or anywhere that a totally odor-free experience is wanted.

## Surround Profresh

Case - \$109.00  
One Gallon - \$27.25

ProFresh contains, in part, concentrated zinc salts, that readily micro-emulsify in water to produce a concentrated odor counteractant, a true odor absorber, not an odor mask.

## Surround NO-Rinse Encapsulating Spotter

We think you'll agree it's the strongest general spotter you can get. No rinsing, no machines, no hassle! Now with natural citrus solvent.

Case - \$109.00  
2qt. twin pack - \$26.95

## Bonnet Wash

### Keep your bonnets looking bright and clean

Bonnet Wash with ProFresh is specifically formulated for cleaning heavily soiled bonnets with institutional grade cleaners, brighteners, enzymes and fresheners. This triple strength formula contains more than three times the cleaning strength compared to conventional laundry detergents.

Case - \$109.00  
One Gallon - \$27.25

## Surround Specialty Spotters – from urine stains to rust removal, we have a spotter for it.

**Waste Away**  
4 Gallon  
Case \$161.00  
12-16 oz. Bottles  
Case \$131.32  
16 Oz. Single \$8.00

**Bye Bye Red Dye**  
24-16 oz. Bottles  
Case \$127.00  
16 Oz. Single \$11.00

**Gum, Grease & Ink**  
24-16 oz. Bottles  
Case \$143.00  
16 Oz. Single \$11.00

**P.O.G.**  
(Paint, Oil & Grease)  
24-16 oz. Bottles  
Case \$185.00  
16 Oz. Single \$12.50

**Rust Remover**  
24-16 oz. Bottles  
Case \$145.00  
16 Oz. Single \$10.00

# It's not encapsulation, it's not protector...

## It's the next evolution in carpet care technology

Have you ever seen a dirty flower? We haven't either. Some plants use what is called the "Lotus Effect"; this is one of nature's ways to self-clean every time it rains. While it can't rain inside and clean your carpets Bonnet Pro has the next best thing!

This is not encapsulation or carpet protectors, it's something completely different!

Active Film Technology or AFT is a positive film that coats the surface fiber with an invisible durable layer only a few microns thick. This is to help prevent the "negative" oily film commonly called an oily binder that causes rapid resoiling. Our positive or helpful AFT film barrier exhibits repellent properties. When the fiber is cleaned, the AFT hydrophilic barrier causes soils to "float" on the Active Film so soils can be displaced or cleaned more easily, and often with a less aggressive cleaning chemical. AFT then also helps prevent new soils from attaching to the underlying face fiber once Bonnet Pro's AFT is in place. This amazing component is natural, safe and non-toxic.

Encaps dry down and leave a polymer coating to suspend small particles of soil to be removed by vacuuming. Semi Fluorinated chemicals also coat the fiber and reduce surface tension but can be expensive and will increase dry times. While protectors can still be used with AFT, AFT is much cheaper, does not require extra application time, has no odor and is reapplied every time you clean at no extra cost to the company providing the cleaning, as it will be built into many Bonnet Pro encapsulation formulas starting with OMEGA Citrus.

- No added cost to cleaner
- No extra time spent to apply
- Helps prevent petroleum-based soils from attaching to face fiber of carpet and textiles
- AFT is none toxic and a natural ingredient
- Helps reduce chemical usage on future cleanings
- Automatically reapplied every time the carpet is cleaned
- Protectors may still be used after cleaning
- Improves encapsulation function

**Repel sticky oil binders that cause rapid resoiling with AFT, an active positive film the helps block harmful oily binders making carpets easier to clean and look better longer.**

## Disposable Safety Signs

These new disposable, paper wet surface signs can protect your customers from slipping and falling and help protect you from the liability.

The First Enzymatic Encap Detergent for Both Residential & Commercial Carpets

Surround OmegaZyme – The First Enzymatic Encap Detergent Endorsed by CRI

## Solo Sprayer

This very handy 1-quart sprayer is not only well made but will also increase your productivity.

Unlike larger sprayers that require two hands to carry, this one allows one-handed operation so you can detect urine deposits with your black light in one hand and immediately treat the contamination with the sprayer in the other. Plus, you'll love the easy-to-use pressure release button. No more spray in the face when you want to refill. This one-handed Solo Sprayer is a must have on every van to allow faster, easier applications of spot pre-treatments, odor control, disinfectants and is excellent for our Always Fresh Oxy Spotter that is coming soon.

**Solo Sprayer \$27.95**

## Bonnet Claw

### The Subsurface Carpet Extraction Tool

The Bonnet Claw Subsurface Carpet Extraction Tool allows for targeted airflow to the pad and backing beneath the carpet to extract contaminants, odors, and liquids, such as pet urine, feces, vomit, and more. The Bonnet Claw Tool works in conjunction with our Waste-Away and ProFresh Deodorizer system. Use Revive iT Oxy Spotter on tougher organic stains like urine when cleaning is completed if needed. The Bonnet Claw Tool uses a process called sub-surface extraction. Subsurface Extraction is used by professional carpet cleaners to thoroughly remove contaminants, liquids, and odors that have soaked into carpet padding and upholstery. Short of removing carpet, subsurface extraction is the best method for flushing out the true cause of odors and reappearing spots.

**Bonnet Claw \$75.00**

## UV Blacklight Kit

This professional UV Blacklight Kit reveals urine, feces, and vomit stains that would otherwise be hidden to the naked eye. Powerful 10 watt UV light works even in daylight, so you don't need to turn off the lights or worry about there being too much light for you to see stains. Recommended for professional use by carpet cleaners.

### Includes:

- Professional UV blacklight flash light
- Hard storage case
- 2x 18650 lithium ion rechargeable batteries
- Battery charger
- Flashlight carrying soft case – attaches to belt at the waist for easy access while on the job

**UV Blacklight Kit \$175.00**

## Urine Elimination System

**The Only Urine Elimination System Kit You'll Ever Need**

### Contains:

- Bonnet Claw – Sub Surface Carpet Extraction Tool
- UV Blacklight Kit
- Solo Sprayer
- Waste-Away Urine, Stain & Odor Remover
- Surround ProFresh Professional Carpet Deodorizer

**Urine Elimination System \$325.00**

The best carpet bonnet  
just got better...  
***much better!***

ProCotton bonnets are already known for their superior cleaning ability. Our new *proprietary* **IRONMAN** yarn now increases durability, 200 to 300%! They don't shed and provide excellent ease of use under your Rotary or OP.

**Bonnets Strong Enough  
to Shred the Competition**

## ProCotton IronMan Long-Life Carpet Cleaning Bonnets

- > Designed and manufactured in the USA
- > Yarns sources in the USA
- > Most durable cotton bonnet in the market
- > Superior cleaning results over microfiber and synthetic bonnets
- > Excellent cotton durability
- > Runs easily and comfortably under your machine
- > Reduces operator fatigue and blown circuits
- > Use with Rotary or OP machines
- > No shedding
- > Very competitive price
- > Many sizes available

8, 13, 14, 15.5, 17.5, 19.5 and 21" sizes for about \$17 each, based on a 17.5". 6 per case

# Let **GUARDIAN** Extend the Life of Your Carpets

**Guardian Carpet & Upholstery Protector** has proven its value, as seen when applied in commercial accounts, to dramatically improve the carpet's appearance and life. Guardian will help protect your carpet against dry soils, the major cause of carpet wear. Dry soils will not bond against the carpet and will more easily be removed by vacuuming. Fewer abrasive soils equals less wear on your valuable carpet fibers which equals a longer life for your floor covering investment.

**Guardian will also protect against oily soils** making it easier to remove oily binders with professional cleanings. These oily binders help trap soils, locking them to carpet fibers and dulling the fiber's appearance. We have found that just these two things alone may increase the periods between carpet cleanings and improve appearance between cleaning cycles.

Guardian, depending on the density and fiber type, can create such a strong barrier that beading can occur. This is helpful when a liquid is spilled containing an acid dye. If the liquid is beading on the top of the carpet, it is easily absorbed and less likely to cause a stain that needs professional care. Of course, other spills are also easily blotted out like puppy accidents or spills from children.

- Technology (meets the goal of the US EPA 2010/2015 PFOA Stewardship Program)
- Best-in-Class performance meets or exceeds current industry soil and stain protection offerings

Today, let your trusted cleaning professional apply **Guardian** and have the peace of mind that your soon to be clean and fresh carpets will stay that way longer than ever before!

**These handouts  
will increase your  
Guardian sales!**

**You'll receive 2 in  
every case**

Disclaimer: While no carpet protector can protect against every spill like bleach, paint or very hot liquids, Guardian will protect against many common household and commercial use occurrences under normal conditions. Beading may not occur on all carpets depending upon weight and material. This does not effect the overall performance.

# Omega **Citrus** Encapsulation Cleaner with AFT – for All Your Serious Carpet & Upholstery Challenges

- Contains Active Film Technology
- Zinc-based odor neutralizers
- No crystallizing crunch or dust
- Excellent cleaning & encapsulation performance for all methods
- Helps resist soiling & easier to clean
- Neutral pH for carpet & textiles
- Signature ProFesh & citrus scent

**AFT** – It's Not Encap, It's Not Protector  
It's Something Completely Different

Waste-Away is included in the **All-In-One Professional Spotting Kit**

## A natural, enzymatic urine, stain & odor remover

Natural plant-based cleaners to digest and eliminate organic material, stains, and odors caused by urine, vomit, and even feces

**CRANBERRY ICE SCENT – INCREDIBLY PLEASANT!**

## Revive it Rocket Citrus Oxy Encap Detergent & Oxy Spotter

Revive it Rocket multi-use, citrus oxy encap detergent carpet cleaner contains a powerful blend of non-ionic detergents and a great smelling, organic solvent made from citrus plus hydrogen peroxide, to remove not only oily, greasy soils, but organic stains and discoloration from carpets and fabrics.

Case – \$149.00 **\$7 Shipping**  
Gallon – \$37.25

## Revive it Oxy Spotter

This ProFresh scented Oxy spotter carpet cleaning product will enable you to clean carpets with a variety of cleaning methods faster and with better results than ever before.

- Excellent Cleaning Power
- Removes Dry and Oily Soils
- Removes Most Organic Stains
- Use with all Low Moisture & HWE Systems

12 Qt Case – \$115.00 **\$7 Shipping**  
Twin Pack Qts – \$29.95

## Radical Rinse

**Powdered encap extraction rinse, booster & low moisture cleaner**

With as little as ½ to 1 ounce per gallon, you can get amazing encapsulation results! Light citrus scent, incredibly low dilutions in our ultra-concentrated encapsulation extraction rinse, encapsulation detergent and booster for your favorite liquid Bonnet Pro cleaner. Plus, Radical Rinse is an incredibly easy-to-mix powder.

7.5 lb. Container – \$129.00 **\$7 Shipping**  
Cleans up to 96,000 sq.ft.

Case of 4 – \$450.00 **Ships Free!**  
Cleans up to 384,000 sq.ft. Saves \$94 compared to buying 4 singles.

Case of 72 Portion Packs/4.5lb. – \$85.00

## Rocket Blast — Tile & Grout Oxy Citrus Cleaner, Spotter, Booster & Carpet Pre-spray with AFT

**More grime-cutting solvent, with oxy & citrus. Effective on olefin, plus has a great scent.**

Rocket Blast tile and grout oxy citrus cleaner, booster and synthetic carpet pre-spray uses only 100 percent active ingredients to give you the best cleaning performance and an exceptional value. Rocket Blast has a light natural citrus fragrance but with a pH of 12.5 it enables you to blast away the toughest soils and even helps to brighten and whitening with its oxy ingredients. Plus, you have AFT, a Bonnet Pro industry exclusive technology built-in to help make future cleanings easier.

Case of 4 - 7.5lb Containers – \$189.00 **\$7 Shipping**  
7.5lb – \$48.00  
2lb – \$23.00

## Grout Shock — Heavy Duty Acidic Tile & Grout Cleaner – *When All Other Tile & Grout Cleaners Fail*

With a pH of 1, **Grout Shock** is an extremely effective acidic tile and grout cleaner, using a phosphoric acid-based formula plus two additional solvents to clean grout, when alkaline cleaners fail to produce the desired results. It removes embedded soils with ease. Use as a second step after your alkaline-based product when needed.

Grout Shock will dig into the grout much deeper and help remove stains, discolorations and other hard-to-remove soils, helping to restore the brand-new look of your floor.

Case – \$149.00 **\$7 Shipping**  
Gallon – \$38.00

# **NEW Hybrid T2H** polymer by Bonnet Pro – the best of both worlds

**WHY?** It dries clear and dry like a crystallizing polymer, is strong and durable and won't self-shatter like a film forming polymer. **T2H has it all!**

Did you know that the coating on a carpet fiber of encap polymer is under 1 micron thick? To put this into perspective, a pin head is about 2 millimeters. A drop of water on a microscope slide is approximately 1 millimeter. A micron is 1,000 times smaller than 1 millimeter. We're talking a coating on the surface of a single carpet fiber that measures about 50 microns or 40x smaller than a pinhead. So to pour the chemical full strength (20x stronger than actual use dilution) into a glass for the currently excepted dry down test is 1,000 to 10,000 times thicker than the use of a product in the real world!

This exciting **NEW T2H Hybrid Polymer** allows for very clear and dry, dry downs that will hold the encapsulated soils longer than a straight crystallizing product. This means more dry soil protection and encapsulated soils that stay encapsulated until they are vacuumed off of the carpet fibers. Our T2H polymers will not self shatter and release soils and polymer back into the carpet just because the product dried. Surround used in real world conditions will not cement soil to the fiber. If poured in a glass the product may dry rather hard and would seem to not be easily removed. But again, in the real world the layer of polymer is so thin that it has to be exceedingly strong to encapsulate the soils and fibers when the polymer is under a micron thick. So naturally if you take this very strong polymer and increase the thickness of the coating like in the glass trick thousands of times thicker than in real world applications then its strength would also increase making the test inaccurate and unusable.

When used in the proper and designed for purpose, Surround exhibits excellent encapsulating properties. The majority of our new **T2H Hybrid Polymer** will vacuum off of the fibers in 3 to 6 vacuum cycles. This could be a week in an office building or several weeks in a home.

See the entire report with pictures showing test results from 85 to 3000 times magnification from a **\$200,000 thousand dollar electron microscope** as performed by Intertek labs. Click on the encap education box on our homepage.

See why Surround not only out cleans and smells better than the competition but why our polymers are also better.

**Don't Settle! Surround!**

**Remember, test it like you would use it – on carpet.**

*Imagine how thin the polymer is on this trilobial shaped carpet fiber magnified at 650x.*

### Same Day Shipments

Order before 2:00pm EST for stock items and your order will be out the door the same day.

### Diverse Product Offering

Multiple low moisture brands, solutions and tools to help your encapsulation operation succeed.

### Huge In-stock Inventory

We plan ahead. Most items are immediately available to you. Need just a few? We'll handle your order as if it were a few hundred.

### Auto Refill Program

**SAVE \$\$\$** on future orders with our **Auto Refill Program**. You'll save 10% per case with no limits. Never run out of chemical again! No wasted time spent on reordering. Streamline your business to save time and money.

### Flexible Policies

Just like asking a friend for a favor. Do you need something special? Let us work with you. We'll cut the red tape.

### CT6 Video & Education Center

Free resources and videos, all geared to help you learn and succeed in your carpet cleaning venture.

### Respectful Treatment

Get honest, educated answers to help your operation grow.
