TOOLS & EQUIPMENT
For VLM & HWE

Bonnet Pro's **tools** range from the Hose Cradle, which protects lawns from HWE hot water lines, to the most advanced low moisture machines ever created.

Check out our unique tools!

MICRO MAX
Stair & UPH Drive
Micro Max Stair & Upholstery 8" Drive Drill Attachment

AFT
Active Film Technology

AFT (Active Film Technology) is a functional protein that is built into many of our products to help block oily binders and bio-films so carpets not only stay cleaner longer but are easier to clean in the future. This is exclusive Bonnet Pro tech that is a must have for the serious carpet cleaner.

SURROUND

Deodorizing Encaps

Surround encapsulation products incorporate the finest dustless encapsulation with proprietary odor neutralizers, a zero-odor product called Surround FREE, odor control products for urine and other odors, and enzyme-based encap carpet cleaners. Omega Citrus is neutral, can clean wool to filthy restaurants and incorporates AFT to block oily binders and bio films so carpets stay cleaner longer!

REVIVE IT

Oxy & Citrus Encaps

The **Revive iT** line can be used for VLM or extract presprays, incorporates liquid or powdered oxy, plus citrus presprays like Revive iT Rocket. Available in both liquid or powdered formulas plus the industry's best spot and organic stains remover, Oxy Spotter. This line also has a high pH powdered tile and grout cleaner, Rocket Blast, which can also be used as a commercial carpet booster, and Radical Rinse, the 1 oz. encap.

LAVA for HWE

Hot Water Extraction

Nothing is stronger than **LAVA** for hot water extraction or has better tech like AFT for carpets that resist bio films, oily binders and stay cleaner longer.

Our larger 7.5 lb. powdered presprays smell fantastic and mix easier, with lower cleaning dilutions to save you money! nanoMAXX-based nano-micro emulsion technology in our liquid prespray, plus LAVA Rinse, are greener and clean better.

See why so many are switching to LAVA for HWE.

CARPET SPOTTERS

Spot & Stain Removers

From rust and red dye to organic stains like urine, coffee and many other substances, Bonnet Pro's **specialty carpet spotters** will make you the *Legend in Your Town*. These are a must-have for your truck.

We even have nanoSPOTMAXX, an all-purpose cleaner and carpet spotter. Safe enough for mom but strong enough for the commercial cleaner.

URINE, STAINS & ODOR REMOVAL

When you need the best technologies, fragrances and outstanding results, you need Bonnet Pro's line of enzyme, zinc-based and USOR presprays to resolve the matter quickly for your customer – the first time.

Did you know Yellow Lava Urine Stain & Odor Remover contains...

- T-38 - for odor causing bacteria
- Superfresh 14 - stops odors before they reach your nose
- SSHP - premium peroxide for organic urine stains
- Priority Blend 7 - superior carpet cleaning agents
- ProFresh Scent - smells wonderful

IRONMAN BONNETS

Strongest Cotton Available

IronMan Bonnets took almost 7 years to test to get the right combination of cleaning ability, long life and a smooth ride under any machine. Our thicker treaded design out-cleans micro fiber, terry-type bonnets and all synthetic bonnets.

These are an industry-best product, from 8" to 21" and made in the USA!

GUARDIAN

Carpet & Fabric Protector

Guardian Carpet Protector's qualities keep oil and water-based liquid spills from soaking into the carpet and wetting the fibers. It also provides protection from dry abrasive soils for longer lasting carpets. Scented with ProFresh and very profitable to add to your bottom line.

NANOMAXX

Organic & Very Powerful

nanoMAXX has a zero health rating, is hypoallergenic, neutral and out-cleans most synthetic chemicals in the world marketplace. 1 gallon cleans over 50,000 feet at 1 oz. per gallon. Multi-surface RTU available also.

See what this incredible, nano-micro emulsion technology will do for your cleaning speed, your cleaning results and your health.

There's nothing like it!

BOOSTERS

For All Cleaning Methods

When you encounter that difficult carpet, it's time for a **booster**. Increase cleaning speed and improve results with straight hydrogen peroxide and a variety of green and other formulas that get amazing results!

BONNET WASH

Institutional Strength Laundry Detergent

Bonnet Wash detergent with **ProFresh** is specifically formulated for cleaning heavily soiled bonnets with institutional-grade cleaners, brighteners, enzymes, and fresheners.

Our triple strength formula contains more than 3X the cleaning strength compared to conventional laundry detergents.

MULTII BRUSH

VLM Deep Cleaning & Absorption

This powerful tool fits under your 17" rotary and provides unrivaled cleaning results in the VLM world.

Over 9,000 bristles on the outside scrub and loosen while the IronMan Bonnet absorbs out the loosened mess.

Nothing in the VLM universe can out-clean the Multii Brush. No OP machine, no Cimex or cylindrical brush can loosen and remove more soil.

See it in action on YouTube. Search *MiniMax Dirty, Filthy Carpets*.

REVIVE ENCAP PADS

Heavy Scubbing

Our **Revive Encapsulation pads** use special binders for carpets and are not buffing pads. Revive Plus pads use hog's hair for a stiffer scrubbing action to break up soils quickly. Revive pads are reinforced with hogs hair but are more forgiving on uneven floors for better contact. Use for commercial and residential synthetic carpets.
